TECHNICAL SKILLS

Languages

JavaScript Python C++ C SQL

Frontend

React HTML5 CSS3 Tailwind CSS

Backend

Node.js Express.js NestJS REST APIs

Databases & ORM

PostgreSQL MongoDB MySQL
Prisma ORM

Developer Tools

Git GitHub Postman Swagger
VS Code Visual Studio MySQL Workbench
Figma

Core Concepts

Data Structures & Algorithms
Object-Oriented Programming
Authentication & Authorization
Role-Based Access Control
API Design Database Design
System Design Problem Solving

EDUCATION

 **BS Computer Science**
Muhammad Ali Jinnah University
Karachi, Pakistan
Expected: 2028
CGPA: 3.65 / 4.00 **A Levels (Pre-Medical)**
Beaconhouse
2022 – 2024

LANGUAGES

English Advanced**Urdu** Native

MUHAMMAD ABDULLAH KHAN

FULL-STACK DEVELOPER

BUILDING
IDEAS INTO
REAL IMPACT

Computer Science undergraduate and Full-Stack Developer building real-world web applications with React, Node.js, Express, PostgreSQL and MongoDB. Experienced in designing REST APIs, authentication systems, relational data models and full-stack solutions. Passionate about backend engineering, scalable systems and solving real-world problems through technology.

 PROJECTS

SELECTED PROJECTS

 Eduvanta — Full-Stack Learning Management System

Featured Project

React · Node.js · Express.js · MongoDB / SQL

- Developed separate teacher and student dashboards with role-based access and protected workflows.
- Built REST APIs for courses, enrollments, student management and academic records.
- Implemented authentication and secure credential handling (bcrypt, JWT).
- Integrated React interfaces with backend services for real-time CRUD operations.
- Developed grading system with assignments, quizzes, marks and performance analytics.

 Carrier Forge — Career Development & Opportunity Platform

React · Node.js · Express.js · MongoDB

- Built a platform for students and early professionals to explore opportunities and grow skills.
- Implemented role-based authentication with personalized dashboards and tracking.
- Developed job listings, application tracking and skill development resources.
- Designed a scalable full-stack architecture with responsive and modern UI.

 AcademicIQ — Academic Performance Analytics Platform

Node.js · Express.js · PostgreSQL · Prisma ORM

- Designed relational academic data models using PostgreSQL and Prisma.
- Implemented JWT-based authentication and role-aware access.
- Developed backend logic for CGPA analysis, future targets and personalized recommendations.
- Built analytical features to identify weaker areas and generate performance insights.
- Integrated backend services with dashboard workflows and data handling.

 StreakFlow — 60-Day Challenge Tracking Platform

HTML5 · CSS3 · JavaScript

- Developed responsive landing, dashboard and daily progress interfaces.
- Implemented streak and progress-tracking workflows for challenge participants.
- Designed analytics-oriented UI components for visualizing activity.
- Added support for participant project submissions and external profile links.

 Recipify — Recipe Search & Management System

Python · JavaScript

- Implemented hash tables, linked lists and tree-based structures for efficient search.
- Developed structured search and organization workflows for recipe data.
- Demonstrated practical application of data structures to real-world problem solving.

 EXPERIENCE

PROFESSIONAL & ACADEMIC

 4Corners — Intern

Nov 2024 – Dec 2024

- Conducted market research and customer-feedback analysis to support product insights.
- Extracted, organized and documented information for client-facing resources and reports.
- Synthesized research findings into actionable recommendations.
- Supported data extraction, audio transcription and organization of project resources.

 A-Level Physics & Mathematics Teaching

2022 – 2024

- Delivered structured instruction in Physics and Mathematics to A-Level students.
- Developed the ability to explain complex concepts through clear problem decomposition.
- Supported students with assessment preparation and academic performance improvement.

 ACHIEVEMENTS

- Cognisor AI Ideathon 2026 – Shortlisted
- ABTalks ViCodathon – Participant
